

Dear Santa, My name is Nasia. [REDACTED] Here are the three things I want under my tree. I will be very grateful for any gift you give me this year, but just don't let it be coal, please. The first thing I want for Christmas is slime because I love how it feels and how squishy it is. The next thing I would like for Christmas is a globe because I would love to see the world and where places are.

Lastly, I wish for a first aid kit for any emergency that could happen at home with my family.

I hope you can make these three
